Why Blueberries?

We want to provide something through our fundraising program that helps local families to start (or to continue) to produce great tasting and healthy food for their families for many many years.

100% of the proceeds from this fundraiser go into buying seeds, plants, dirt, tools and infrastructure that will help local students to learn about where their food comes from.

Blueberry Plant Fundraiser

Support Stelly's Garden Initiatives

> To plant a garden is to believe in tomorrow

BLUEBERRIES

- Blueberries are one of the healthiest foods on earth.
- Delicious and nutritious. High in vitamins and antioxidants.
- Blueberries can be planted in your fruit and veggie garden, or planted in your decorative beds.
- Green foliage and blue fruit in the summer, and brilliant red fall colour
- Great price. **$9 per plant**. We are buying in bulk, and can supply you vigorous 3 year old plants at below greenhouse prices..

Thank You for Supporting Stelly's Garden Initiatives

PLANTING INFORMATION

- Bluecrop Blueberries
- Full sun
- Loamy, well drained soil (pH 4.5-5.5)
- Zone 4-7
- Self pollinating
- Large clusters of berries ripen mid season (July)

FAQ

How many plants should I buy?

Each Bluecrop blueberry plant will produce 15-20 lbs of berries when mature.
Some literature recommends one plant per family member.

How big are the plants?

These 3-year-old blueberry plants come in one gallon pots and are 18-24" tall.
