

WORKING WITHOUT THE COMPUTER

You do not need the computer to answer the following questions that test your understanding of the ideas you have learned.

1. Given the spreadsheet below, determine the value of cell D 5 if the following formulas are entered there: Fill in your answers next to the questions below:

	A	B	C	D
1	10	8	5	
2	12	5	9	
3	6	10	8	
4	20	6	8	
5				

a) = SUM(A1: C1) _____

b) = 5* SUM (B1 : B4) _____

c) = AVERAGE (A3 : C3) _____

2. For the spreadsheet given in question 1 above, if the formula = SUM (A1: C1) is entered into cell D1, and then copied down to cell D4, what formulas will be found in the following CELLS .

Remember: as you copy DOWN, the numbers in the previous row's formulas are increased by 1 unless \$ signs are used.

D2 _____

D3 _____

D4 _____
