

2. Calculate the Monthly Totals for each of January, February and March By ADDING DOWN

Develop formulas for the following CELLS.

B7 \_\_\_\_\_, C7 \_\_\_\_\_

D7 \_\_\_\_\_

Enter these formulas into your computer and calculate the totals. Write down the values in these CELLS in spreadsheet 2 above

3. Calculate the Revenue for each drink over the 1<sup>st</sup> Quarter (Jan, Feb and March)

**Prices:**

- Tea \$1.25
- Coffee \$2.00
- Chocolate \$1.50
- Milk \$ 1.00

Develop formulas for the following CELLS. The first one is done for you

F3 = E3\*1.25 \_\_\_\_\_ F4 \_\_\_\_\_

F5 \_\_\_\_\_, F6 \_\_\_\_\_

Enter these formulas into your computer and calculate the totals. Write down the values in these CELLS in spreadsheet 2 above

4. Calculate the Revenue for each Month

Develop formulas for the following CELLS. The first one is done for you

B8 = B3\*1.25 + B4\*2.00 + B5\*1.50 + B6 \* 1.00 \_\_\_\_\_

C8 \_\_\_\_\_

D8 \_\_\_\_\_
