

5. Calculate the average revenue over three months.

Develop a formula to calculate the average revenue for the three months. Enter this formula into CELL F9 on your computer. Fill in the value you get for this CELL into spreadsheet 2 above

F9 _____

PRACTICE 2

Wages

Enter spreadsheet 3 into your computer

Spreadsheet 3

	A	B	C	D	E	F
1	NAME	Regular Hours	Regular Pay Rate	Overtime Hours	Overtime Pay Rate	Gross Pay
2	John	40	\$7.50	5	\$15.00	
3	Paul	40	\$7.50	4	\$15.00	
4	George	40	\$6.50	5	\$13.00	
5	Ringo	40	\$6.00	6	\$12.00	
6	Sara	40	\$6.50	3	\$13.00	
7	Emily	35	\$8.00	2	\$16.00	
8						
9					Total	

1. Develop formulas for the following CELLS which calculates the gross pay for each employee. The first one is done for you

F2 = B2*C2 + D2*E2 F3 _____ F4 _____

F5 _____ F6 _____ F7 _____

Enter these into your computer and fill in the values for these cells into spreadsheet 3 above.

2. Develop a formula to calculate the total wages paid and enter it into CELL F9

F9 _____
