**Report from Administration (Mr. Westhaver)**

- The announcements/bell system is now working.
- Some of the many student activities in November/December include:
  - Law 12 students held a mock trial
  - the Leadership Students hosted a breakfast for staff
  - students participated in Cyclebites to raise funds for diabetes research
  - students visited Tectoria to learn about the local high-tech industry
  - international students went to Whistler
  - Science World visited the school and made presentations to some of the science classes
  - community involvement activities include the presentation of concerts and the collection of donations for the food bank
  - Grade 12 students had their Winter Formal dance
  - the Boulders Climbing Wall was officially opened on 10 Dec 2011, with participation by Stelly's students

- Staff activities include:

- ongoing staff collaboration to improve teaching. One project involves integrating the astronomy section of Science 9 with Language Arts, Social Studies and Math.
- the "What Did You Do in School Today" survey has been completed by about 600 students and the remaining students will take the survey in January. The results of this survey are used to assess student engagement. For example, staff wants to see if the Grade 9 linear program is working. Grade 9 students have some complaints about having homework in the 4 core subjects on the same day.

Mr. Westhaver noted that Grade 9 students will be in attendance and in classes during the January exam period.

The December newsletter is now out and available from the school website and includes the timetable for January exams.
